

Brooms & Brushes

From the front door to the back, we can help keep your facility looking its best.

Rubbermaid® Brooms & Brushes – A Complete Line of Commercial Tools for Superior Cleaning.

Good cleaning requires the right cleaning equipment. Surface textures and types of dirt vary throughout a building, so professional cleaners need a wide range of tools. Rubbermaid's broom and brush line is extensive and diverse to address the specific

cleaning needs of any organization, inside and outside. Each product is attractive, comfortable to use, and constructed of high quality materials. With an offering that ranges from small hand brushes to wide floor brooms, Rubbermaid can help your cleaning crew deliver top-notch results.

Rubbermaid Equals Real Results.

From the tiniest, hard-to-reach corner to the largest floor area, count on Rubbermaid's selection of brooms and brushes to get the job done.

Top: Lobby Pro™ Deluxe Upright Dust Pan and Lobby Dust Pan Broom offer quick cleanup without bending over.

Above: Hand Scrubs are perfect for cleaning hard-to-reach crevices in fixtures, floors, baseboards and more.

Left: For windows, choose wash brushes with natural fibers to absorb cleaning solution and prevent scratches.

For High Quality and Efficient Cleaning, Use the Right Tool for the Job.

In recent years, quality standards in the lodging and health-care industries have trended upward: environments are more luxurious, service levels are higher, and ergonomic requirements are greater. Purchasing attractive, labor-saving equipment that can boost productivity is essential but often

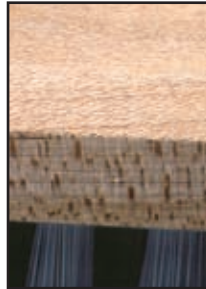

difficult. Choosing the right tool for your cleaning job requires understanding structures, fills and their intended uses. The information below will help you make wise buying decisions.

Block Structures

Structural Foam Block

Resists cracking, splitting, warping and rotting. Helps prevent bacteria growth. Two threaded holes add longevity to product.

Wood Block/Lacquered

Resists moisture and helps prevent cracking. Offers a classic look. Two threaded holes add longevity to product.

Block and Fill Design

Staggered hole pattern prevents gaps in fill material so brush sweeps up all the dirt. Dense fill leads to longer brush life and more efficient sweeping. Flagged tips pick up fine dust and dirt particles. Flared ends allow access to corners.

Fill – Natural

Horsehair

Very durable with a naturally flagged tip. Good shear/break resistance. Will not scratch smooth or highly polished surfaces. Not for use on oily or wet surfaces. Best in fine floor sweeps or counter dusters.

Palmyra

Medium to highly stiff fiber from the Palmyra Palm grown in India and Africa. Durable and good bristle recovery. Can be used wet or dry. Best in medium sweeps to street brooms, scrub and deck brushes.

Tampico

Soft to medium stiff fiber from the Agave plant grown in Mexico. Durable, retains shape after continual use. High resistance to heat, alkali, solvents and acid. Can be used wet or dry. Best in fine to medium sweeps, scrub, counter and deck brushes.

Fill – Synthetic

Nylon

Very durable. Excellent abrasion resistance, shear/break strength and bristle bend recovery. Will not stain, discolor or absorb odors. Resistant to alkalis and most solvents. Can be used wet or dry. Best in scrub brushes.

Polystyrene

Extremely durable. Excellent bristle bend recovery and shear/break strength. Resistant to water, oils and solvents. Not for sweeping compounds or oily surfaces. Best in fine floor sweeps and counter dusters.

Polypropylene

Very durable. Good abrasion resistance and shear/break strength. Will not stain, discolor or absorb odors. Resistant to solvents, acids, oils, fungus and bacteria growth. Can be used wet or dry. Best in medium to heavy floor sweeps and scrub brushes.

Fill – Wire/Metal

Brass

Provides a high degree of abrasion without severely scratching hard surfaces and will not rust. Best for heavy cleaning of metal or brick surfaces that cannot sustain heavy scratches.

Stainless Steel

Provides a high degree of abrasion and wear resistance. Resists chemicals and rust. Excellent bend recovery. Best for aggressively removing residue from metal or other resilient materials.

Tempered Steel

Provides a high degree of abrasion and wear resistance. Good bend recovery. Best for aggressively removing residue from metal parts or brick work.

Rubbermaid® Brooms & Brushes – A Complete Selection

Corn Brooms

Designed for rugged indoor/outdoor cleaning applications. 100% natural broom corn fibers for long life and effective removal of fine dirt, even on rough surfaces. Manufactured for maximized flare and high efficiency. Hand-selected, heavy-duty lacquered pine handles.

Lobby/Angle Brooms

Ideal for cleaning under furniture, fixtures and other hard-to-reach areas. Tough polypropylene with flagged bristles model helps trap fine dirt particles.

Fine Floor Sweeps

Available in flagged styrene or blended horsehair/tampico for removing even fine dirt and dust. Ideal for highly polished or waxed floors. Two threaded handle holes on either side of block allow use of alternating sides for even wear. Angle brace adds support and stability.

*Handles sold separately.

Medium Floor Sweeps

Long-lasting polypropylene and natural tampico bristles are designed to remove heavier dirt and debris on both rough wood and smooth floor surfaces. Indoor/outdoor model moves both heavy and fine dirt equally well. Two threaded handle holes on either side of block allow use of alternating sides for even wear. Angle brace adds support and stability.

*Handles sold separately.

Heavy-Duty Floor Sweeps

Heavy-duty polypropylene bristles resist stains and odors and are designed for use in the most demanding industrial applications. Natural palmyra is a heavy-duty sweep for all rough surfaces. Two threaded handle holes on either side of block allow use of alternating sides for even wear. Angle brace adds support and stability.

*Handles sold separately.

Street & Barn Sweeps

Wide flared ends for greater floor coverage and ease when sweeping close to walls or curbs. Polypropylene bristles are washable for long life. Natural palmyra for rough surfaces. Two threaded and tapered handle holes on either side of block allow use of alternating sides for even wear.

*Handle sold separately.

of Quality Cleaning Tools Designed to Do the Job Right.

Toilet Bowl Brushes

Designed for easy toilet bowl cleaning. Synthetic polypropylene bristles resist stains and odors.

Wire Scratch Brushes

For efficient removal of rust, paint and grease. Wire bristles tackle tough cleaning jobs. Each features convenient hole for hanging.

*9B45 handle sold separately.

Scrub Brushes

Natural and synthetic fibers set in plastic blocks. Designed to ease work of scrubbing tile and grout lines, floors, baseboards, walls, and countertops.

Counter Brushes

Natural black tampico fibers retain shape when clearing coarse dirt. Available with flagged synthetic bristles for removing fine dirt and dust, or unflagged for heavier debris. All-plastic brush blocks feature hang-up hole. Whisk brush is made of 100% natural corn fibers.

Utility Brushes

All-plastic blocks have hang-up hole for easy storage. Available in both synthetic and natural palmyra bristles. Ideal for food service applications and institutional use. Choice of 8" (20.3 cm) or 20" (50.8 cm) length.

Masonry Brushes

These wood or plastic block brushes are perfect for applying paint, plaster and other materials on almost any type of brick, tile, stone or other masonry work. Available in tampico or synthetic bristles.

Rubbermaid® Brooms & Brushes

Deck Scrubs

Rugged brushes designed for the most challenging wet scrubbing applications. Long-lasting polypropylene fibers resist stains. Palmyra bristles for heavy-duty, rough floor scrubbing. Available in hardwood or tough plastic blocks.

*Handles sold separately.

Wash Brushes

Available in flagged synthetic fibers to help avoid scratching delicate surfaces or in natural tampico for absorbing cleaning solution. Plastic blocks will not split or delaminate.

*Handles sold separately.

Lobby Pro™ Upright Dust Pans

Wear pads and wheels provide easy use and extended product life. Durable, all-plastic pan and yoke reduces noise, resists corrosion.

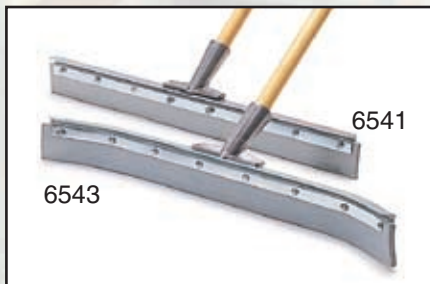

Dust Pans

Heavy duty plastic dust pans come in extra large sizes to hold ample amounts of dirt and debris.

Floor Squeegees

*Handles sold separately.

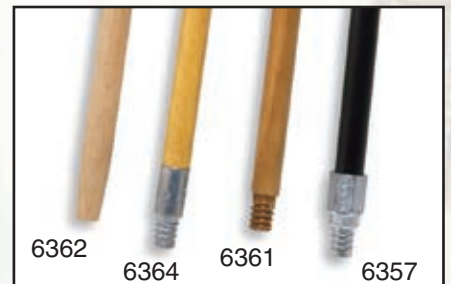

Heavy-duty zinc plated frame with built-in scraper resists corrosion. Gum rubber blades are easily replaced. Available in straight and curved versions.

Sponge Mops

Synthetic sponge mop head absorbs liquids fast. The convenient handle-mounted lever squeezes out excess liquid. Durable aluminum handle and non-corrosive parts can be used for damp mopping, light scrubbing, waxing or dusting. Refill heads available.

Handles

Lacquered or sanded handles available in 60" (152.4 cm) and 54" (137.2 cm) lengths for both threaded and tapered versions. Threaded self-locking handle retains its hold on floor sweep blocks.
