Energy/Labor Savings

- Reduces drying time by 30%.
- Reduced cycle times produce higher productivity rate and reduced costs in the laundry system.

Stain Product Recovery

- 25% overall reduction in the number of “re-wash” loads due to stains.
- This reduction resulted in savings of chemicals, labor, and allows more product available to stay in use.
- 25% reduction in pillowcase replacement cost and 9% reduction in replacement sheet costs.

Environmental Impact from Reduced Drying Time

- CO₂ Emission reduction of 7.29 kg/day or 2639 kg/year. (*results are based on an 85 room facility with a 3 par linen level.)
- CO₂ reduction equivalent to burning 293 gallons less gas per year in a typical car.

Return on Investment: 41.96%

The ROI was calculated as the total annualized savings recorded during our trials divided by the total cost of DryFast product required for the 3-par used in our trials. (Total Annualized Savings/Total Cost of DryFast)
